

Keeping You Informed: The Latest News at Fabcon

FABCON

Introducing Sentry-Cast

In a challenging economy customers appreciate value and expect the best — aesthetically and structurally. This is where Sentry-Cast can unite both criteria into a beautiful package. In the past, precast and beautiful usually were not used in the same sentence. Well the times are changing and Fabcon is determined to meet the demands of our customers.

Fabcon is pleased to introduce Sentry-Cast wall systems. Fabcon’s outstanding quality, attention to detail, and customer service are unbeatable. The beauty and swift installation of Sentry-Cast wall products makes the process easy and worry free for our customers from start to finish. Sentry-Cast wall systems offer a wide variety of applications.

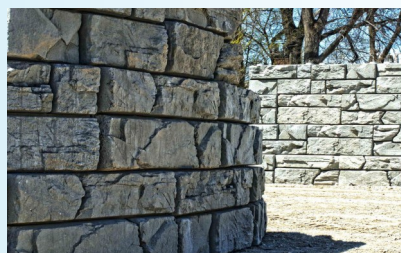

Sentry-Cast walls are constructed of precast concrete for unmatched durability and consistent quality. Only a Sentry-Cast wall can give the look of real stone at an affordable price and with an amazingly quick installation.

Our molded stone pattern on both sides of the wall delivers the look and feel of real masonry at a fraction of the cost. Beauty aside, Sentry-Cast products by Fabcon are also more durable than wood, vinyl or even brick or block walls.

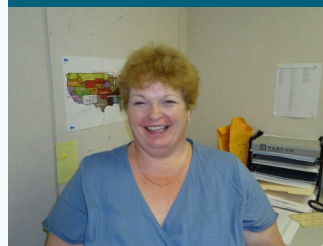

The Fabcon / Sentry-Cast seamless solid-panel design provides structural strength and security that will last for decades. These walls are designed to endure the harshest conditions and broadest range of climates, and can be engineered to meet the building code requirements of your area.

Relationships are important to Fabcon and we would like to voice our appreciation. Thank you to those who we have long standing relationships with. We look forward to helping you with your next project. We are constantly striving to improve our process to better meet your needs. We would also like to recognize our new customers and express our commitment to your satisfaction. We all thank you for the opportunity and we are working hard to exceed your expectations.
The Fabcon Family

There are no constraints on the human mind, no walls around the human spirit, no barriers to our progress except those we ourselves erect.
Ronald Reagan
